

## HSE binding declaration

The company Dosch Messapparate GmbH has the safety, health -and environmental regulations that are dictated by the local authorities (trade association, labor inspectorate) implemented.

During the annual external audit for ISO 9001: 2008 as well as by external risk assessments and visits by the authorities, compliance with these legal requirements are controlled and possible suggestions for improvement implemented.

In the past 10 years no relevant accidents / incidents in the area of health, safety and environmental issues have occurred.

Management and employees of company Dosch Messapparate GmbH are committed to the following guiding principles of safety and health and environmental protection:

- Revenues must not be at the expense of the health and safety of people and protection of the environment.
- The requirements of laws and regulations be understood as minimum requirements.
- actions that are illegal or obstacles to fair competition will be omitted.
- It is working continuously on improvements in occupational safety and health services.
- All decisions and actions are introduced regularly checked for implementation and effectiveness and, where appropriate, further improvements derived therefrom. The goal is to continually improve.
